CUMC is walking to benefit the World Service Fund.

The World Service Fund is the financial lifeline to a long list of Christian mission and ministry throughout the denomination. It provides funding to four general programs within The United Methodist Church that focus on Leadership, Church Growth, Ministry with the Poor, and Global Health. This vital fund helps to build new churches, prepare clergy and lay leaders, seeks justice and help for those affected by poverty, and drives a concerted effort to end preventable disease globally.
